IDAPT Chanakya Fellowship Program

About the Program

The Technology Innovation Hub for Interdisciplinary Data Analytics and Predictive Technologies (TIH – IDAPT), is a Section-8 not-for-profit company incorporated at the Indian Institute of Technology (Banaras Hindu University), Varanasi under the National Mission on Interdisciplinary Cyber Physical Systems (NM-ICPS) of the Government of India.

TIH-IDAPT is excited to extend an invitation for the TIH-IDAPT CHANAKYA Fellowship Program. This initiative is part of our ongoing efforts to foster research, innovation and technology development leading to products, IPRs and deeptech companies.

About CHANAKYA Fellowship

Comprehensive and Holistic Advancement of National Knowledge Yield and Analytics (CHANAKYA) is an initiative under the National Mission on Interdisciplinary Cyber-Physical Systems (NM-ICPS) with a focus on human resource development.

The goal is to help India become a pioneer in technology led economic growth and prepare the country to be the world leader in the technology arena.

Who can apply

This program provides an opportunity for faculty members and students from engineering and science colleges/ Universities/ Institutions at various academic levels (UG, PG, PhD, Post-Doctoral) to work on a project in the application areas of Data Analytics and Predictive Technologies.
